EHAP Quiz Main Page - Historyteacher.net

A file has two key properties: a filename (usually written as one word) and a path. The path specifies the location of a file on the computer. For example, there is a file on my Windows 7 laptop with the filename project.docx in the path C:\Users\asweigart\Documents. The part of the filename after the last period is called the file's extension and tells you a file's type.
