The Intelligent Gardener Growing Nutrient

Title Description Keywords; December 11, 2016. Grow nutrient dense food with OrganiCalcGrow Abundant Gardens. Vibrant, nutrient-dense food is the results of proper soil mineralization, soil biology and growing conditions.

Grow Abundant (Growabundant.com) - Grow nutrient dense ...

The aspara™ smart indoor grow box is a miniaturized hydroponics farm system. Hydroponics is a method of growing plants without soil by using mineral nutrient solutions in a water solvent. The hydroponic growing method cuts out the need for harmful chemicals and pesticides and it calls for only 10% of the water that would be used in typical farming methods.

Article updated on 13th Jan 2016 Dragon fruit or called by its proper name Pitaya is one of the lesser known fruiting plants in the Western world (perhaps the whole world).. The name "dragon fruit" has its origins in Asia and probably was formed as a way to describe the bright coloured fruit with a chunky scaled skin resembling large...Well, dragon scales, I guess.

Dragon Fruit (Pitaya) - How-to Guide for Growing

Growing, pickling, preserving, cooking and eating food is a joyful experience. But what makes it even better is sharing the food we have grown and cooked with the people in our village.

A grow light or plant light is an artificial light source, generally an electric light, designed to stimulate plant growth by emitting a light appropriate for photosynthesis. Grow lights are used in applications where there is either no naturally occurring light, or where supplemental light is required. For example, in the winter months when the available hours of daylight may be insufficient ...
